1. Background

The UNCT-SWAP Gender Equality Scorecard is a globally standardized monitoring and accountability framework that promotes adherence with minimum gender mainstreaming requirements in the work of the UN system at the country level.

The Scorecard was endorsed in 2008 by the United Nations Development Group (now UNSDG) in response to the 2006 UN Chief Executives Board for Coordination (CEB) *Policy on Gender Equality and the Empowerment of Women* ([CEB/2006/2](#)), which called for a system-wide action plan in order to operationalize the strategy of gender mainstreaming at the entity level and in the field. First known as the Gender Scorecard, its focus originally was on joint processes and institutional arrangements at the country level. The UN System-wide Action Plan for Gender Equality and the Empowerment of Women (UN-SWAP) formed the entity-specific part of the accountability framework.

In 2018, the UNCT-SWAP Gender Equality Scorecard (UNCT-SWAP) was updated to ensure greater alignment with the UN-SWAP, and to reflect new guidance on common country processes in the context of the repositioning agenda of the United Nations Development System. Both SWAPs were expanded at this stage to cover also development and normative results tied to the SDGs.

The mandate for UNCTs to implement the UNCT-SWAP emanates from the Quadrennial Comprehensive Policy Review (QCPR) and ECOSOC Resolutions on gender mainstreaming, which call for accelerating UN efforts to mainstream gender, including through the full implementation of the UNCT-SWAP.

UNCT-SWAP reporting follows a two-prong methodology: Comprehensive Assessments occurring at the Cooperation Framework planning stage, and Annual Progress Updates, as highlighted in the [UNCT-SWAP Gender Equality Scorecard: Framework & Technical Guidance](#) (page 20).

2. The UNCT-SWAP Framework

2.1 Performance Dimensions and Indicators

The UNCT-SWAP is structured around seven dimensions and 15 Performance Indicators (PIs) that address key gender equality and empowerment of women and girls' components as agreed by the UNSDG, setting related benchmarks for gender mainstreaming minimum requirements.

Cooperation Framework Guidance (2019)

Gender equality and women's empowerment are integral to realizing the 2030 Agenda and all of the SDGs. To integrate a focus on these issues throughout the Cooperation Framework, UN development entities should put gender equality at the heart of programming, driving the active and meaningful participation of both women and men, and consistently empowering women and girls, in line with the minimum requirements agreed upon by the United Nations Sustainable Development Group (UNSDG) in the UNCT System-wide Action Plan (SWAP) Gender Equality Scorecard.

(Para 20, page 11).

2.2 Performance Indicator Ratings and Explanation

Ratings against minimum UNCT-SWAP requirements allow UNCTs to self-assess and report on their standing with respect to each indicator and aspire towards higher levels of achievement. The four possible scores for each Performance Indicator are as follows:

Missing requirements > **Approaches minimum requirements** > **Meets minimum requirements** > **Exceeds minimum requirements**

If UNCTs fail to achieve the criteria under ‘approaching minimum requirements’, the indicator is scored as ‘missing requirements’. An indicator may score as ‘missing requirements’ in some cases where achievements have been made, if it nonetheless falls short of the criteria set forth in ‘approaches minimum requirements’.

UNCTs should aim to meet minimum requirements in all indicators. However, this should be considered as a starting point, from which UNCTs should aim to strengthen their efforts to achieve better results and exceed minimum requirements.

3. The UNCT-SWAP Methodology – Annual Progress Reporting

3.1 Participatory Self-Assessment

The UNCT-SWAP exercise is a transparent, evidence-based and participatory self-assessment of UN country level gender mainstreaming practices. Its focus is on the joint performance of the UN system at country level, rather than on the achievements of any single entity. The exercise is designed to promote internal dialogue and ownership of results.

The process of Annual Progress Assessments is similar to that of Comprehensive Assessments. The exercise is implemented under the overall guidance of the UNCT. The (re)assessment of Performance Indicators is driven by an Interagency Assessment Team (IAT), which

is appointed by UNCT Heads of Agency, ensuring broad representation of UN entities and participation of key interagency groups. The IAT is led and facilitated by a Coordinator(s). It works collaboratively to review past performance and select UNCT-SWAP Performance Indicators for reassessment in the reporting year (minimum 5, as indicated in 3.2 below), reassessing and reporting on performance and preparing a report-back on the implementation of the UNCT-SWAP Action Plan, proposing any necessary updates to the Action Plan.

The UNCT-SWAP Annual Progress Report and updated Action Plan are shared with the UNCT for endorsement, enabling the UNCT to monitor and oversee progress in achievement of UNCT-SWAP minimum performance requirements and in the implementation of the UNCT-SWAP Action Plan to ensure all actions are completed.

3.2 UNCT-SWAP Annual Progress Assessments

UNCT-SWAP reporting takes place one time per Cooperation Framework cycle against all 15 Performance Indicators and **annually against a minimum 5 Performance Indicators**, and to **report on progress in implementing the UNCT-SWAP Action Plan**. The purpose of Annual Progress Assessments is to ensure that the UN in country is collectively making progress in meeting and exceeding UNCT-SWAP minimum performance requirements, and to support ongoing monitoring of achievements and course corrections needed. They are also intended to support coordinated monitoring and reporting on the implementation of the UNCT-SWAP Action Plan.

In selecting Performance Indicators for reassessment, it is recommended to focus on those areas of performance where improvement is most critically needed. While UNCTs should strive for progress, sometimes performance may remain at the same level, or even regress – which is important to capture. Further, while some Performance Indicators lend themselves easily to annual reassessment, the Performance Indicators ratings pertaining to the Planning Dimension are likely to change only when a new Cooperation Framework is developed.

Reassessment of Performance Indicators entails the selection of a performance rating and the provision of a justification for why a particular rating has been given. In addition, UNCTs are required to provide supporting evidence and documentation for each Performance Indicator rating (see 3.3 below). Reviewing the implementation of and updating the **UNCT-SWAP Action Plan** is a key part of the UNCT-SWAP Annual Progress Assessment.

The finalization of the Annual Progress Report can be conducted through a single consolidation workshop, or through two dedicated workshops or meetings to agree on Performance Indicator ratings on the one hand, and to review the report-back on the Action Plan, revising the Action Plan to incorporate any proposed adjustments and additions.

3.3 Supporting Evidence and Knowledge Hub

The Interagency Assessment Team has a collective responsibility to provide evidence and analysis to justify the rating given to each Performance Indicator. The Interagency Assessment Team gathers evidence, analyzes the data and then scores indicators. UNCTs are encouraged to share these supporting documents and best practices within the UNCT-SWAP Knowledge Hub, which is included in the UNCT-SWAP reporting platform.

Supporting evidence, by Performance Indicator, is highlighted under Chapter 9 (below).

4. Quality Assurance and Global Reporting

UN Women is responsible for supporting the implementation of the UNCT-SWAP, and provides guidance to UNCTs through a global helpdesk (genderscorecard.helpdesk@unwomen.org). As part of the quality assurance process, UN Women in collaboration with UNDCO reviews the UNCT-SWAP Gender Equality Scorecard reports submitted by UNCTs for thoroughness and consistency of ratings. This takes place through the annual Report of the [Secretary-General on mainstreaming a gender perspective into all policies and programmes in the United Nations system](#).

5. The UNCT-SWAP Process in Jordan

1. Describe the process you undertook for UNCT-SWAP annual progress reporting. Include rationale for choice of selected performance indicators for re-assessment this reporting year and describe the role of the Inter-Agency Assessment Team and coordinator(s), and UNCT engagement

The 2021 Annual Progress Report was led by the inter-agency team nominated by their respective Agencies. The IAT was composed of 4 members from across 3 agencies of the UNCT: UN Women, RCO, and UNFPA. Members also represented the UN Communications Group and the M&E Group. In close consultation, the IAT selected the following five indicators to report on in 2022:

- 1.2 Gender equality mainstreamed in Cooperation Framework outcomes

Jordan is in its final stages of the Cooperation Framework development process. The Outcome statement have been finalized and signed off on by the government. The narrative document and the Results Framework were submitted in August to the Government (MOPIC) and pending its feedback. UN Women and the GTT worked closely on the development of the UNSDCF, working across all 4 results groups.

- 2.2: Communications and Advocacy Address Areas of Gender Equality

In 2022 the GTT worked closely with the UN Communications Group to ensure that the UNCT undertakes joint communications and advocacy for gender equality. Consequently, 2022 saw several robust joint UN campaigns on GEWE, including the 16 days of Activism against gender-based violence, IWD 2022. The UNCT also undertook communications initiatives in non-traditional areas, in particular through a campaign highlighting women leaders in climate action.

- 3.1: UNCT Collaborates with the government on GEWE

While the UNCT has had close collaborations with the national women's machinery for the past few years, in 2022 particular efforts were placed on consulting JNCW and integrating their voices processes related to UN planning and the Cooperation Framework processes, in particular the UNSDCF and the VNR and VLR.

- 3.2: UNCT Collaborates with gender equality CSOs

While the UNCT has had close collaborations with gender equality CSOs for the past few years, in 2022 particular efforts were placed on consulting gender equality CSOs and integrating their voices processes related to UN planning and the Cooperation Framework processes, in particular the UNSDCF.

- 3.2: UNCT Collaborates with gender equality CSOs

While the UNCT has had close collaborations with gender equality CSOs for the past few years, in 2022 particular efforts were placed on consulting gender equality CSOs and integrating their voices processes related to UN planning and the Cooperation Framework processes, in particular the UNSDCF.

- 6.1: Adequate Resources for Gender Mainstreaming are Allocated and Tracked

In 2022 the GTT and UN Women increased their efforts to roll out the GEM, and make sure that the GEM is used consistently and accurately. This lays down important groundwork to work with the UNCT to set a financial target in the coming year.

List the coordinator(s) and the UN entities that participated in the Inter-Agency Assessment Team for the UNCT-SWAP annual progress reporting

UN Women, RCO, UNFPA

Enter any additional comments, including on country context in the field below:

6. Overview of Performance Indicators Reassessed, and Performance Indicator Ratings

Table 1:

Indicator	Rating Level	Reassessed
PI 1.1 Common Country Analysis	EXCEEDS	No
PI 1.2 Cooperation Framework Outcomes	APPROACHING	Yes
PI 1.3 Cooperation Framework Indicators	MEETS	No
PI 2.1 Joint Programmes	MEETS	No
PI 2.2 Communication & Advocacy	EXCEEDS	Yes
PI 2.3 Cooperation Framework M & E	MEETS	No
PI 3.1 Engagement with Government	EXCEEDS	Yes
PI 3.2 Engagement with GEWE CSO	EXCEEDS	Yes
PI 4.1 Leadership for Gender Equality	EXCEEDS	No
PI 4.2 Organizational Culture	MEETS	No
PI 4.3 Gender Parity	EXCEEDS	No
PI 5.1 Gender Coordination Mechanism	MEETS	No
PI 5.2 Gender Mainstreaming Capacities	EXCEEDS	No
PI 6.1 Resource Allocation & Tracking	APPROACHING	Yes
PI 7.1 GEWE Results	MEETS	No

The findings presented in the below table indicate the ratings scored by the UNCT in Jordan for each Performance Indicator across the seven dimensions of analysis as they stand in 2022. It includes the ratings reassessed in 2022, and ratings carried from previous reporting years.

Table 2: Overview of UNCT-SWAP Cumulative Results in 2022

7. UNCT-SWAP Detailed Findings by Performance Indicators Reassessed

Dimension Area 1: Planning

PI 1.1 Common Country Analysis

**Performance Indicator 1.1:
Common Country Analysis integrates gender analysis
EXCEEDS MINIMUM REQUIREMENTS**

Planning

CCA or equivalent meets minimum requirements AND includes (c) Targeted gender analysis of those furthest behind.

The CCA aims to provide an updated and shared analysis of the context to inform joint programming, strategic advocacy with partners, decision-making about pathways towards achieving the 2030 Agenda, and the UN's response and strategic position in Jordan. A new full-fledged CCA was developed at the end of 2020, including a peer quality review by regional entities (in December 2020-January 2021). However, in view of the recent national and regional changes that occurred in the first half of 2021, a light update was conducted to reflect the developments focusing on six main areas: Political analysis, Risk analysis, Regional analysis, Stakeholder analysis, Financial analysis and LNOB analysis.

a) Gender analysis across all sectors including underlying causes of gender inequality and discrimination in line with SDG

priorities including SDG 5;

Gender analysis is included in all sectors of the CCA report with sufficient assessment and comprehensive data. The document demonstrates an all-inclusive situation analysis across all sectors, and provides an outline of the underlying causes of gender inequality and discrimination. The updated CCA analyses Jordan's progress towards the 2030 Agenda for Sustainable Development with key trends and dynamics providing a snapshot of Jordan's progress against each of the SDGs during a challenging time as Jordan, and the region, is battling a resurgence of COVID-19 pandemic.

b) Consistent sex-disaggregated and gender sensitive data. AND

Sex-disaggregated data and gender sensitive data are substantively provided in the analysis across all sections of the CCA and in alignment with the five elements of the Sustainable Development Agenda: People, Prosperity, Planet, Peace and Partnerships.

Disaggregated data and gender comparisons were provided under different thematic areas mainly in relation to labour force participation, unemployment, political participation, health, education, humanitarian situation, vulnerability and the impacts of COVID-19.

The CCA also analyses gender representation among the youth, and does integrate gender equality and examines results as evidenced by identification and segmentation of different vulnerable groups.

c) Targeted gender analysis of those furthest behind.

The CCA includes a focused chapter that analyses the main causes of marginalisation and exclusion in Jordan, and identifies the groups most at risk of being left behind. This includes a thorough illustration of the key drivers of inequality with a lens on women and girls and intersectionality.

Did you reassess the Performance Indicator in this reporting year

- No

PI 1.2 Cooperation Framework Outcomes

Performance Indicator 1.2:

Gender equality mainstreamed in Cooperation Framework outcomes

Planning

APPROACHES MINIMUM REQUIREMENTS

(a) Gender equality and the empowerment of women is visibly mainstreamed across some outcome areas in line with SDG priorities, including SDG 5.

This indicator approaches the requirements, as there is no dedicated outcome on gender equality, and only some of the outcomes include explicit reference to gender equality, specifically Outcome 1: Enhanced inclusive, gender-responsive and green growth in Jordan that provides access to entrepreneurship and decent work opportunities, life-long learning, and market-relevant skills with a focus on LNOB, as well as Outcome 4: Enhanced accountability and responsiveness of Jordanian institutions and their partners, and, especially women and youth are increasingly and meaningfully involved in policy choices and decisions that affect their lives.

Jordan is in its final stages of the Cooperation Framework development process. The Outcome statement have been finalized and signed off on by the government. The narrative document and the Results Framework were submitted in August to the Government (MOPIC) and pending its feedback. The process has been driven and informed by the 4 Results Groups in a collaborative and inclusive manner, ensuring representation of all relevant UN agencies, with members of the GTT represented across all RGs. A more general and inclusive language was eventually prioritized for half of the outcomes as, through multiple rounds of discussions, it was deemed more appropriate in order to ensure focus also on other priority vulnerable groups in addition to women and girls. An agreement was reached in this case whereby efforts towards gender equality were going to be better showcased through an articulation in the outputs, sub-outputs and indicators language. For example, within outcome 2 there a dedicated output on changing cultural and social norms (including Sexual Reproductive Health Rights) and tackling gender based violence, whereas within outcome 3 several sub-outputs focus on both strengthening the national capacity of developing and funding gender-responsive crises resilience policies (in particular on climate change) and in women and women-led organizations' involvement, including in public resource management.

Did you reassess the Performance Indicator in this reporting year

- Yes

List the Means of Verification. (E.g. Cooperation Framework document)

UNSDF in Jordan 2023-2027

PI 1.3 Cooperation Framework Indicators

Performance Indicator 1.3:

Cooperation Framework indicators measure changes on gender equality

Planning

MEETS MINIMUM REQUIREMENTS

Between one-third and one-half (33-50 percent) of Cooperation Framework outcome (and output) indicators measure changes in gender equality and the empowerment of women in line with SDG targets, including SDG 5.

Between one-third and one-half (33-50%) of UNSDF outcome indicators track progress towards gender equality results, in line with SDG targets including SDG5.

Of the 20 outcome indicators for UNSDF Results Framework for Jordan, 7 (35%) are gender sensitive and track progress against gender equality and the empowerment of women.

For Strategic Priority (Strengthened Institutions) I, 40% of outcome indicators qualify (2 of 5); for Strategic Priority II (Empowered People), 28.5% of outcome indicators qualify (2 of 7); for Strategic Priority III (Enhanced Opportunities), 37.5% of outcome indicators qualify (3 of 8). The analysis found significantly higher levels of gender sensitivity in Strategic Priorities I and III with lower levels in Strategic Priority II. None of the Strategic Intents include at least half (50%) of gender sensitive and responsive indicators, suggesting a greater attention to consistency in gender mainstreaming in the future. See Annex D for details.

The assessment qualified an indicator based on either a definition that includes gender disaggregation or a definition that is gender specific. In those cases where the indicator definition is not specific on gender, attention was paid to the related target, that included a gender-sensitive or disaggregated component or the means of verification, such as CEDAW Reports.

Did you reassess the Performance Indicator in this reporting year

- No

Dimension Area 2: Programming and M & E

PI 2.1 Joint Programmes

Performance Indicator 2.1:

Joint programmes contribute to reducing gender inequalities

Programming and
M&E

MEETS MINIMUM REQUIREMENTS

(a) Gender equality is visibly mainstreamed into all JPs operational at the time of assessment; AND (b) A Joint Programme on promoting gender equality and empowerment of women and girls is operational over current Cooperation Framework period in line with SDG priorities, including SDG 5.

a) There is one Joint Programme (JP) operational at the time of the assessment: Promoting Productive Employment and Decent Work for Women in Egypt, Jordan and Palestine, implemented by ILO and UN Women.

JP's 3 outcomes and 12 outputs all visibly mainstream gender, and its situation analysis contains explicit reference to SDG5 and SDG8 (Decent Work and Economic Growth). There is consistent use of sex-disaggregated and gender-sensitive data, and country's

Female Employment Profile is included. 24 out of 30 (80%) outcome and output indicators are either sex-disaggregated or gender-targeted.

b) Besides the above mentioned JP, another joint programme promoting gender equality and empowerment of women was operational over current UNSDF period in line with SDGs priorities including SDG 5. Hemayati Programme: Promoting Women's and Girls' Health and Wellbeing was jointly implemented by UNFPA, UNICEF and UN Women in 2017-2018. The programme focused its interventions on Syrian refugees and vulnerable Jordanians, in particular SGBV survivors.

c) There is no system in place to ensure gender mainstreaming in JPs.

Did you reassess the Performance Indicator in this reporting year

- No

PI 2.2 Communication & Advocacy

**Performance Indicator 2.2:
Communication and advocacy address areas of gender inequality
EXCEEDS MINIMUM REQUIREMENTS**

**Programming and
M&E**

Meets minimum requirements AND (d) The UNCT has contributed collaboratively to communication or advocacy in at least one non-traditional thematic area during the past year.

b) The UNCT has contributed collaboratively to at least one joint advocacy campaign on GEEW during the past year.

UNCT has contributed collaboratively on International Women's Day in March 2022 and will be collaborating on 16 Days of Activism 2022. For 16 Days of Activism, JNCW, along with UN Women and UNFPA and other national and international partners will be organizing the joint press conference to launch the campaign. The UNCG, represented by staff from 18 UN agencies, will jointly develop key messages to disseminate through the campaign and compile a joint calendar of activities to observe the campaign. UN Women, along with JNCW, will organize a roundtable on gender-based violence with CSOs, the media, national and international partners and also organize the closing ceremony of the campaign under the patronage of HRH Princess Basma Bint Talal.

Please refer to the attached IWD 2022 Report for further details.

The report on 16 Days of Activism 2022 will be drafted and finalized following the end of the campaign.

c) Interagency Communication Group Annual Work Plan or equivalent visibly includes GEEW communication and advocacy.

The UNCG supports the UNCT to communicate on four main priorities with focus on LNOB: refugees, migrants, and the people we serve; children; the elderly and PWD while empowering women and Youth. Showcase the impact of Gender-Based Violence, Prevention and Response. In Quarter 4 of the 2022 Annual Work Plan, a joint campaign for the 16 Days of Activism against Gender Based Violence has been planned. Social media posts on different events around GEEW are regularly reposted through the UN in Jordan Twitter account.

Please refer to the attached UNCG Annual Work Plan for 2022 for further details.

d) The UNCT has contributed collaboratively to communication or advocacy in at least one non-traditional thematic area during the past year.

In April 2022, the UNCT contributed collaboratively and published stories featuring four women and girls at the forefront of climate action in Jordan in the official UN Jordan website and this was adapted and published on the UN SDG website as well in June 2022. Please refer to the link here: <https://unsdg.un.org/latest/stories/meet-four-women-and-girls-forefront-climate-action-jordan>

Stories focused on Layan Al Bairouti, a Palestinian refugee and student at the UNRWA Baqa'a Preparatory Girls' School in Jordan, raising awareness about climate change through creating content such as animated videos, Aida Salameh, a 49-year-old woman who joined UN Women's Oasis Centre in Tafilah, southern Jordan as an agricultural teacher and shared knowledge with other women in the community on agriculture, including the benefits of greenhouse, utilizing different tools and equipment, how to plant crops and use fertilizers to maximize productivity, so women can start applying their skills in

their own farm work. Basma Al-Shatti, Head of the Corporate Social Responsibilities Division in the Jordan Renewable Energy & Energy Efficiency Fund (JREEEF), talked about leading an important division in the Jordan Renewable Energy & Energy Efficiency Fund under the Ministry of Energy and Mineral Resources which serves as a connection point with the local community and is supported by UNDP. UNHCR highlighted Samahir, who lives in Zaatari Camp and uses plastic basins to save water for planting to address climate change, posting a video of her story as well. During the International Women's Day 2022 campaign, a virtual learning dialogue titled "How Climate Change Fuels Gender-Based Violence (GBV) in Jordan" was organized by the GBV Sub-Working Group. In commemoration of the IWD 2022, UN Women in partnership with the Royal Film Commission – Jordan and the artistic direction of Ghada Saba, movie director and TV anchor, launched the 10th edition of the Women's Film Week, under the esteemed patronage of Her Royal Highness Princess Basma bint Talal, UN Women Goodwill Ambassador. Throughout the week, approximately 2000 people attended the screenings, being introduced to powerful stories on women's rights and potential of women's leadership on climate change adaptation, mitigation, and response, to build a more sustainable future for all. On March 18th and 19th, the core team of HeForShe Arabic, in partnership with UN Women Jordan and in cooperation with Liwan Space, held awareness sessions on climate change, discussing the importance about plastic waste as well as the impact of climate change on the human race, where the event was joined by 41 participants.

For other examples of comms/advocacy around climate change, please refer to the IWD 2022 report.

Did you reassess the Performance Indicator in this reporting year

PI 2.3 Cooperation Framework M & E

Performance Indicator 2.3:

Cooperation Framework monitoring and evaluation measures progress against planned gender equality results

Programming and M&E

MEETS MINIMUM REQUIREMENTS

Meets two of the following: (a) Cooperation Framework results matrix for gender sensitive indicators gathered as planned. (b) Cooperation Framework reviews/evaluations assess progress against gender-specific results. (c) The M&E Group or equivalent has received technical trainings on gender sensitive M&E at least once during the current Cooperation Framework cycle.

a) UNSDF Results Framework includes specific outcome indicators (both quantitative and qualitative) and targets that track progress towards gender equality results. The indicators are disaggregated by gender and other determinants, such as age, and integrated under each outcome.

At the time of the Scorecard assessment, UNSDF output indicators and targets are being prepared to be included in the UN Joint Workplans to gauge progress against gender specific results.

There has been commitment among the UNCT to improve gender sensitivity through reporting against planned interventions following monitoring mechanisms. Data has been gathered for gender sensitive indicators.

Examples include:

- Approximately 2,250 women accessed safe spaces per month and over 400 SGBV survivors accessed services per month (9 safe spaces in Irbid, Hitteen, Hoson Camp, Rusaifa, Ma'an, Amman, Zarqa, Khaldyeh and Ramtha).
- 8,471 Syrian refugee and vulnerable Jordanian women in Ajloun and Jerash host communities were supported with

multisectoral SGBV services.

- 2,195 Syrian and Jordanian female job seekers were successfully placed in jobs, mainly in the garment sector.
- 7 analytical products that show GBV trends in Jordan were produced to help inform programming, advocacy and decision-making and to try to address the challenge of gender-based violence in Jordan.

b) UNSDF Results Group were established for each outcome to ensure a coherent UN support and to guide UN programming towards the achievement of the planned results.

The Results Groups perform regular monitoring of the planned activities. To assess progress of the 2018 implementation of the UNSDF, the Groups prepared a report on major events that had an impact on UNSDF implementation, as well as on key achievements for the year together with success stories. Moreover, the report covered implementation challenges, with recommendations to address them. Since 2018 was the first year of implementation of the UNSDF, the review did not assess progress towards outcomes, while mostly describing accomplishments, including in gender area.

At the strategic level, a Joint Steering Committee (JSC) co-chaired by the Minister of Planning and International Cooperation and the UN Resident and Humanitarian Coordinator is convened annually to review and discuss progress in the UNSDF implementation, and to provide the overall direction and high-level oversight and support, including deciding on risk mitigation strategies. At the time of the Scorecard assessment, the JSC is yet to meet on 12 November.

All in all, there is still a need to enhance the connection between what is being measured and planned to be achieved.

c) There is no specific M&E group. The function has been integrated into the Results Groups. Technical training on gender sensitive M&E has not been provided during the current UNSDF.

Did you reassess the Performance Indicator in this reporting year

- No

Dimension Area 3: Partnerships

PI 3.1 Engagement with Government

Performance Indicator 3.1:

UNCT collaborates and engages with government on gender equality and empowerment of women
EXCEEDS MINIMUM REQUIREMENTS

Partnerships

Meets all of the following: (a) The UNCT has collaborated with AT LEAST ONE government agency on a joint initiative that fosters gender equality within the current Cooperation Framework cycle. (b) The National Women's Machinery participates in Cooperation Framework consultations: country analysis, strategic prioritization, implementation, M&E. (c) The UNCT has made AT LEAST ONE contribution to substantively strengthen Government participation and engagement in gender related SDGs localization and/or implementation.

The UNCT has collaborated with at least two government agencies on a joint initiative that fosters gender equality within the current UNDAF cycle.

Examples include:

1. Cooperation with JNCW on annual campaigns, including 16 Days of Activism and International Women's Day (2017-2022)
2. Cooperation with JNCW, the Ministry of Labour, the Chamber of Industry on promoting productive employment and decent work for women within the UN Women and ILO Joint Programme "Promoting Productive Employment and Decent Work for Women in Egypt, Jordan and Palestine".

3. Cooperation with the Ministry of Social Development and the National Council for Family Affairs within the framework of Hemayati JP on women's and girls' health and wellbeing (2017-2018);

The National Women's Machinery participates in UNDAF consultations: country analysis, strategic prioritization, implementation, M&E.

The NWM in Jordan is defined as the Jordanian National Commission for Women (JNCW)

The preparation of the CCA (2021) involved extensive consultations across a range of stakeholder groups. Among other stakeholders, consultations sessions were held with representatives the government of Jordan including JNCW. These consultations, including with JNCW, were what the UNCT then utilized to inform the development of its UNSDCF.

A Steering Committee has been established which aims to provide strategic direction and oversight to the implementation of the UNCF while ensuring national ownership and leadership. The Steering Committee is co-chaired by the UN RC/HC and the Minister of Planning and International Cooperation (MoPIC). It is comprised of the four Results Groups co-leads per priority, two from Government and two from the United Nations, plus the Secretary-General of the Ministry of Planning and International Cooperation (MOPIC) and the JNCW.

In addition, JNCW and other government partners working on gender-related areas participate in UNSDF implementation through joint programmes and other initiatives that foster GEWE (see a).

c) The UNCT has made at least one contribution to substantively strengthen Government participation and engagement in gender related SDGs localization and/or implementation.

In July 2022, the Government of Jordan submitted a Voluntary National Review (VNR) and a Voluntary Local Review (VLR) (first VLR in the Arab region) at the High-Level Political Forum (HLPF) under the auspices of ECOSOC. In this process, the UN in Jordan engaged with the Ministry of Planning and International Cooperation (MOPIC), the lead Ministry to coordinate this process, including by being represented across all 17 VNR task forces. The UNCT's Gender Themed Group worked with these task forces and with the JNCW to support gender mainstreaming in the process, including by developing a toolkit to be used by all 17 task forces which includes a checklist on minimum requirements for gender mainstreaming in VNR papers; and a matrix capturing gender elements of the different SDGs, including gender indicators, links to CEDAW, gender messaging in the 2017 VNR, and potential key messages on gender elements for the 2022 VNR. The JNCW was also substantively consulted for the VLR, as evidenced in the VLR's acknowledgments and list of stakeholder participation.

Did you reassess the Performance Indicator in this reporting year

**Performance Indicator 3.2:
UNCT collaborates and engages with women's/gender equality
civil society organizations
EXCEEDS MINIMUM REQUIREMENTS**

Partnerships

Meets all of the following: (a) The UNCT has collaborated with GEWE CSO and women's rights advocates on AT LEAST TWO joint initiatives that fosters gender equality and empowerment of women within the current Cooperation Framework cycle. (b) GEWE CSO participates in Cooperation Framework consultations: country analysis, strategic prioritization, implementation, M&E. (c) The UNCT has made AT LEAST ONE contribution to substantively strengthen GEWE CSO participation and engagement in gender related SDGs localization and/or implementation.

1. The UNCT, in collaboration with the UN Communication Group, the Jordanian National Commission for Women, and in partnership with the civil society (Shamaa Network and Nama'a CSO), held several events in 2019, 2020 and 2021 under the 16 Days of Activism campaign. (See indicator 2.2)
2. The joint UN programme Hemayati was based on a partnership with a key non-government organization working in the area of GEWE – Jordan Women Union (JWU). The programme also involved two grass-root community based organizations – Al-Sannabil and Shuwaa. Within the framework of the joint UN programme on promoting productive employment and decent work for women, collaboration is ongoing with the General Federation of Jordanian Trade Unions consisting of about 200,000 members.
3. The UN Women and ILO Joint Programme “Promoting Productive Employment and Decent Work for Women in Egypt, Jordan and Palestine” works with diverse partners, including civil society, to promote decent employment opportunities for women by addressing the structural causes of inequalities that women face in the region, including to challenge gender stereotypes at home and in the world of work. Two CSOs are in the management committee at the country level in Jordan and representing Jordan on the steering committee level.

The preparation of the CCA (2021) involved extensive consultations across a range of stakeholder groups. Among other stakeholders, consultations sessions were held with representatives from Women's Organizations. These consultations, were what the UNCT then utilized to inform the development of its UNSDCF.

In addition, women's civil society organizations are working on gender-related areas participate in UNSDF implementation through joint programmes and other initiatives that foster GEWE (see a).

c) Examples include:

1. The UNFPA Youth Peers and UN SDG Advocates working towards strengthening capacities of Jordanian youth to advocate for GEWE through the conduct of the HeForShe University Tour.
2. The final evaluation of Hemayati JP notes CSO's increased knowledge and practices on SGBV prevention and response, which directly relates to SDG5 localisation.
3. The Enabling an SDG Financing Ecosystem Programme, a joint effort by UNDP, UNICEF and UN WOMEN, works with the largest investment vehicles in Jordan, including the Social Security Investment Fund (SSIF) while also engaging civil society organizations and the youth, to strengthen alignment of climate responsive planning, budgeting and financing, increasing alignment of public and private investments with national SDG priorities, while promoting a gender-responsive SDG financing framework.

Dimension Area 4: Leadership & Organizational Culture

PI 4.1 Leadership for Gender Equality

Performance Indicator 4.1:

UNCT leadership is committed to championing gender equality

EXCEEDS MINIMUM REQUIREMENTS

**Leadership and
organizational culture**

Meets all of the following: (a) Gender equality is a regular topic of discussion in HOA meetings during the last 12 months. (b) RC demonstrates public championing of gender equality during the last 12 months. (c) HOAs are seen by personnel as committed to gender equality in the workplace during the last 12 months. (d) Gender equality is reflected in the Assessment of Results and Competencies (ARC) of UNCTs during the last 12 months.

a) Gender or gender-related topics were discussed at all UNCT meetings during the last 12 months (10 minutes of meetings/agendas examined).

(See full report for highlights, page 27).

b) The Resident Coordinator (RC) demonstrated leadership and public championing of gender equality and women's empowerment on behalf of UNCT. 24 out of 26 (92%) examined speeches made reference to gender issues. For instance, at the Arab Food Industries Forum for Food Safety and Trade Facilitation, the RC noted the country's intentions to undertake robust reforms to stimulate inclusive growth and job creation, especially for women. At the #SPEAKUPJO FAIR, the RC spoke about gender-based violence. Other speeches included emphasis on women's role in peace and social stability; the importance of women and men having equal opportunities to decent employment and income; reaching the most vulnerable women nation-wide with resilience and empowerment services; women being continuously excluded from decision making both in public life and at home; empowering people and providing opportunities for participation and engagement, especially of women and the youth; primary role for UNCT in 2019-2020 to be recognized as a leading partner in protecting and promoting human rights and gender equality; gender-related challenges in the context of SDGs; striving for equality regardless of sex, status, and race; and gender equality as part of UN Secretary-General's Prevention Agenda, besides other.

Moreover, UNCT's joint submission on 4 recommendations to the CEDAW was completed under the leadership of the RC together with UN Women Representative; an inter-agency group was formed to consolidate the submission. RC takes leadership on PSEA and sexual harassment issues during UNCT meetings and foras and co-chairs the Women, Peace, and Humanitarian Fund National Steering Committee.

c) 74 per cent of respondents strongly agree and agree with the second question on the organizational culture survey "Heads of Agencies in this UNCT demonstrate leadership and commitment to gender equality in the workplace."

d) 2018 ARC contains UNCT goals on SDGs and human rights including on raising awareness on SDG 5 and on UPR submission. The UNCT 2019 annual workplan has as outcome: “The UNCT is recognized as a pro-active partner in protecting and promoting human rights and gender equality,” with planned activities.

PI 4.2 Organizational Culture

**Performance Indicator 4.2:
Organizational culture fully supports promotion of gender
equality and empowerment of women
MEETS MINIMUM REQUIREMENTS**

**Leadership and
organizational culture**

Survey results of personnel perception of organizational environment for promotion of gender equality scored a positive rating of 65-79 percent.

The survey was sent to all HOAs with instructions to distribute to all personnel. During the period of 14-22 October 2019, diverse audience consisting of 461 UN personnel submitted their answers, from which 54.45% of the responses were from females, while 44.90% were from males and 0.65% were from others. Balanced responses were received from personnel with supervisory roles (50.54%) and without supervisory roles (49.46%)

Results scored an overall positive rating of 67.54% (11.88% negative and 20.58% neutral). The minimum requirement (65%) is met as an average across the 10 questions that deal with issues of gender equality, discrimination and work-life balance. Moreover, the minimum requirements were met individually for 7/10 questions.

The score for the UN system’s efforts to fulfil its mandate to achieve an equal representation of women and men at all levels was the highest at 77.22%.

Perception of heads of agencies commitment to gender equality in the workplace was also high with 73.92%.

Perception about equal treatment irrespective of sex, gender identity or sexual orientation scored slightly below the 65% threshold, with 63.5% of positive answers. The work-life balance scores were lower than the minimum requirements with an average of 54.24% of positive answers (25.6% neutral and 17.67% negative).

Refer to Annexes B and C in the full report for detailed information.

PI 4.3 Gender Parity

**Performance Indicator 4.3:
Gender parity in staffing is achieved
EXCEEDS MINIMUM REQUIREMENTS**

**Leadership and
organizational culture**

Meets minimum requirements AND (c) The Business Operations Strategy (BOS) includes gender-specific actions and indicators in at least one business operation area to foster gender equality and women’s empowerment.

a) Since the 2019 Scorecard exercise the UNCT have a mechanism to yearly monitor and track gender parity in staffing, with 2019 baseline data. From 2020 the indicator was expanded to include all UN contract modalities, including non-staff.

b) Through the Scorecard exercise the UNCT committed to encourage each agency to tailor their sourcing strategy to attract candidates from the underrepresented gender. 2020 data:

- National fixed term staff: 50% females and 50% males, to be noted; 47% of general service staff and 60% of professional staff are female. Categories G1-G6 are dominated by males (87.6% in 2020 compared to 89% in 2019).
- National short term: 48% females and 52% males in the general service staff category, and the professional staff category shows 47% females and 53% males.
- International staff fixed term: Equal representation in grade P1 to P5 in 2020. Sr. international professional positions (D1, D2) have 61% males in 2020 (an increase in male staff with 4% since 2019). The overall gender parity in the international staff category is 49% female and 51% male in 2020 compared to equal representation in 2019.
- International short-term category: P1-P5 have 60% females and 40% males and for D1 and D2 there are 50% females and 50% males.

The overall data shows 50% females and 50% males in both short term and fixed term staff when collating data on national and international staff in 2020, a positive overall trend compared to 2019 with 47% females and 53% males.

c) The BOS was updated in 2020 and includes the following identified opportunities for future cooperation related to gender; the collection of gender parity data, conduct a survey on work life balance, and update the UN welcome kit to add details/ policies related to the UN code of conduct for enabling environment and gender parity.

Dimension Area 5: Gender Architecture and Capacities

PI 5.1 Gender Coordination Mechanism

Performance Indicator 5.1:

Gender coordination mechanism is empowered to influence the UNCT for gender equality and empowerment of women
MEETS MINIMUM REQUIREMENTS

Gender architecture and capacities

Meets three of the following: (a) A coordination mechanism for gender equality is chaired by a HOA. (b) The group has a TOR and an approved annual work plan. (c) Members include at least 50% senior staff (P4 and above; NOC and above). (d) The group has made substantive input into the Cooperation Framework including the country analysis, strategic prioritization, results framework and M&E.

a) Based on the 2019 Scorecard recommendation the Gender Task Team (GTT) was established as UNCTs inter-agency coordination mechanism and is chaired by UN Women's Country Representative who is also the appointed UNCT Gender Champion.

b) A workplan was developed based on the endorsed Scorecard recommendations and was endorsed by the group.

c) The GTT has several senior team members at NOC level or higher and P4 level or higher, although for those who actively participate the percentage is lower than 50%. As the aim is to ensure engagement across agencies, with nominations from agencies, seniority has been considered but membership has not been formally limited to senior staff. Several members are Gender Focal Points who have gender expertise and technical capacity to support GEWE commitments through their agencies.

d) The GTT contribute to UNSDF implementation in different ways, based on their respective thematic focus and in 2020 the group has contributed to the Socio-economic Framework (SEF) to Respond to Covid-19, the process of updating the CCA and tailored training opportunities has been provided to GTT members, programme managers, M&E staff to ensure capacities are in place for gender response implementation and M&E of the SEF and UNSDF.

Did you reassess the Performance Indicator in this reporting year

- No

**Performance Indicator 5.2:
UNCT has adequate capacities developed for gender
mainstreaming
EXCEEDS MINIMUM REQUIREMENTS**

**Gender architecture and
capacities**

Meets all of the following: (a) At least one substantive inter-agency capacity development activity for UN personnel has been carried out during the past year. (b) A capacity development plan based on an inter-agency capacity assessment is established or updated at least once per Cooperation Framework cycle and targets are on track. (c) UNCT induction material includes gender equality and the empowerment of women commitments and related development challenges of the country.

a) At least one substantive inter-agency gender capacity development activity for UN personnel has been carried out during the past year.

The capacity development activities up until December 2021 and since the last round of assessment in 2020 include the following trainings:

1. UNCT Gender Markers training (January 2021), attended gender focal points, M&E focal points and programme managers. The UNCT GEM training, supported by the GEM Helpdesk, included a knowledge sharing session from UNCT Nepal and exercises on GEM coding.
2. Workshop on gender mainstreaming for UNSDCF (14 September 2021) as part of the UNCT's UNSDCF roadmap, attended by UN gender focal points, UN programme and M&E colleagues, and government gender focal points. The workshop included interactive exercises on the processes for gender mainstreaming within the UNSDF at the different stages - CCA, ToC, results framework, monitoring, evaluation, budgeting; and an exercise to select key SDGs in line with the UNCT action plans and determined key gender priorities for Jordan under these areas for the next UNSDF.

b) A capacity development plan based on an inter-agency capacity assessment is established or updated at least once per UNDAF cycle and targets are on track.

A capacity development plan is in place and is based on an assessment of existing trainings and needs. The capacity development plan was updated in 2021 based on a capacity-assessment survey.

c) UNCT induction material includes gender equality and the empowerment of women commitments and related development challenges of the country.

As of November 2021, UNCT induction materials include the text below:

The United Nations is committed to gender equality and women empowerment. You are encouraged to review the following materials and online courses:

- UN Women "I Know Gender" online course (free): <https://trainingcentre.unwomen.org/portal/product/i-know-gender-1-2-3-gender-concepts-to-get-started-international-frameworks-for-gender-equality-and-promoting-gender-equality-throughout-the-un-system/>

Dimension Area 6: Financial Resources

PI 6.1 Resource Allocation & Tracking

Performance Indicator 6.1:

Adequate resources for gender mainstreaming are allocated and tracked

Resources

APPROACHES MINIMUM REQUIREMENTS

(a) The UNCT has carried out at least one capacity building event on the UNCT Gender Equality Marker over the current Cooperation Framework cycle.

a) Following recommendations from the 2019 UNCT-SWAP Gender Equality Scorecard, the UNCT in Jordan has committed to address gaps in its gender mainstreaming and specifically on tracking financing for gender equality. As part of the UNCT's Gender Task Team workplan for 2020, Two customized capacity building training sessions were carried out in December 2020 and January 2021 on UNCT Gender Markers (GEM) to relevant UN staff including the Gender Task Team, Programme managers and M&E focal points.

In addition, in 2022, the GTT developed an analysis of the UNCT's performance on the Gender Equality Marker in the 2021 JWP by using the UN info platform. This analysis was utilized to identify gaps and needs to improve the UNCT's mechanism for tracking resources allocated to gender equality. The analysis showed that only 28% of available resources were coded either GEM2 (gender equality is a significant objective) or GEM3 (Gender Equality is the principal objective). In addition, it showed that 66% of the UNCT's available resources were not coded for GEM. In response to these findings, a training was conducted to strengthen the capacities of the UNCT to apply the GEM, the GTT will provide support in this process by serving as a quality assurance mechanism - looking through the codes applied to activities in the draft JWP and liaising with colleagues to adjust as needed. This process lays important groundwork to establish a reliable baseline, which can then inform the establishment of a Gender Equality Marker target as required in Scorecard Indicator 6.1 on resource tracking and allocation

b) and c) The work outlined above has established some important groundwork that will allow for the establishment of a GEM baseline. Once this is determined, the GTT will work with the UNCT to establish a GEM target.

UNCT GEM training presentation, including explanation of quality assurance mechanism

Dimension Area 7: Results

PI 7.1 GEWE Results

Performance Indicator 7.1:

UN programmes make a significant contribution to gender equality in the country

Results

MEETS MINIMUM REQUIREMENTS

(b) The UNCT has achieved or is on track to achieve all gender equality and the empowerment of women results as planned in the Cooperation Framework outcomes, in line with SDG priorities, including SDG 5.

UNCT Jordan has achieved or is on track to achieve all gender equality and the empowerment of women results as planned in the UNSDF outcomes in line with SDG priorities including SDG 5.

The UNSDF (2018-2022) covers three results groups: (1) Strengthened Institutions; (2) Empowered People; and (3) Enhanced Opportunities. The existence of functional systems to track and make public allocations for gender equality and women's empowerment is on track (outcome 1.2). The target on laws and policies which are adopted and/or modified in line with international/UN standards and conventions has largely been achieved (outcome 1.4), with the UN having been recognized to hold a strong normative role in advising the Government of Jordan on new legislation and international commitments. Women's labor force participation (outcome 2.2) is also on track, noting that Jordan continues to have one of the lowest female labor force participation rates globally due to persistent challenges related to social norms, lack of transport and childcare. Significant progress towards this goal will take years. Nevertheless, UN's role in advocacy for women's right to work is recognized to be strong, while direct programmes are limited. Progress towards the proportion of seats held by women in national parliament and locally elected councils (outcome 3.1), is challenging to measure as elections had not taken place since the baseline. Nevertheless, the Parliamentary elections were held in the context of COVID-19 at a time when Jordan witnessed a substantial number of positive cases, resulting in a low voter turnout of 30% and a negative impact on women's participation. Despite the challenges, the UN is recognized to have indirect role in promoting gender equality in national and local elections.

Overall, according to the UNSDF Mid-Term Evaluation (2021), gender equality is raised consistently by UN agencies across a wide range of programmes and activities. This is an area of significant influence and impact by the UN, where the agencies have collaborated at a strategic level. The UNCT has been effectively held accountable for its commitment to gender equality through joint advocacy, analysis, technical guidance and capacity strengthening under the coordination of UN Women. Similarly, for the coordinated refugee response, UN Women and UNHCR co-chair a Sector Gender Focal Point Network to ensure the overall inter-sector refugee response is gender responsive.

The improvement of overall UNSDF M&E interventions will greatly impact progress towards improving the Country Team's scoring under this indicator, including setting baselines, targets, and intersectional and LNOB inclusive data disaggregation at outcome, output and activity levels.

Dimension 5 – Gender Coordination and Capacities

5.1 Gender Coordination Mechanism	N/A	Based on the recommendation, the Gender Task Team (GTT) was established, chaired by the UNCT Gender Champion (UN Women's Representative). The GTT convenes on a bi-monthly basis and has a TOR and representation across agencies.	The GTT is ongoing working on several work streams through different sub-groups	The GTT is ongoing working on several work streams through different sub-groups
5.2 Gender Capacities	- Follow and track capacity development plan - Update the gender resource note, a repository of key resources on gender equality and the empowerment of women made available to all Gender Focal Points.	Based on discussed and identified needs, a GTT capacity development plan is in place the capacity development activities up until January 2021 and since the last round of assessment in 2019 include the following trainings: COVID-19,	- UNCT conducted a system-wide capacity needs assessment and designed a capacity building plan. - UNCT induction material has been updated to include GEWE materials.	Several efforts for increasing GEWE capacities in the UNCT took place, including a session on gender data, and a session on the GEM.

		<p>the Socioeconomic Framework, intersectionality and gender data, UNCT Gender Markers, and UNCT SWAP Gender Equality Scorecard training. The training was attended by all UN agencies in Jordan including both gender focal points and non-gender focal points. The objectives of the trainings were to build capacity of UN personnel and to enhance their awareness about gender mainstreaming in programs including in joint programs. In total 5 capacity development sessions were conducted and in total more than 200 UN personnel participated in the capacity development sessions. A system-wide capacity needs assessment will be carried out in 2021, informing the next phase of the capacity development plan.</p>		
Dimension 6 - Resources				
6.1 Financial Resources	<p>Ensure that UNCT tracks and utilizes UNSDF budgetary data to ensure adequate allocation of resources for GEWE. Annual budgetary target for GEWE expenditures for the whole UNSDF should be set, for instance, with the help of UN Info; monitored and reported on. - UNCT - establishment</p>	<p>A training series was rolled out in December 2020-January 2021 on the UNCT Gender Equality Marker (GEM) by GTT in support of its application in UN Info and ensuring tracking of resources allocated towards GEWE, with a dual intention to set a gender finance target for the UN in Jordan.</p>	<p>UNCT GEM training took place</p>	<p>The GTT undertook an analysis of the GEM in the 2021 JWP. Based on its findings, the UNCT undertook a training on the GEM, and set up a quality assurance mechanism for the GEM.</p>

	of gender marker system for UNSDF Outputs. - Results Groups -ensure data provision.			
Dimension 7 - Results				
7.1 GEWE Results	Work with Results Groups and M&E Group (to be reinstated) to gather gender-related data in accordance with UNSDF Results and Resources Matrix, and to provide technical advice to UNCT. For more efficiency, the groups should utilize UN Info as a tool for more effective reporting within the UNCT. Ensure intersectional gender data collection and reporting following LNOB principle (including sex, age, disability (Washington Group Short Set of Questions), nationality, migration status, geographic location). Leverage the UN Data Management Committee to enhance monitoring of gender-inclusive knowledge products	2020 UNSDF and SEF results are being reported into the UN INFO platform, and gender results will be presented in early 2021. A sub-group of the GTT is engaged to support gender responsive M&E.	N/A	N/A
